SUMMARY

University of Washington Geography: Data Science graduate and Air Force reservist with an active DoD Security Clearance, pursuing CompTIA Security+ and Network+. Hands-on experience in network security, vulnerability assessment, and secure data handling, backed by a foundation in Python, data analysis, and HIPAA compliance. Seeking an entry-level cybersecurity role.

EDUCATION

University of Washington | Department of Geography

Seattle, WA

Bachelor of Arts in Geography: Data Science | GPA: 3.5/4.00

March 2026

- **Relevant Coursework:** Machine Learning, Information Assurance and Cybersecurity, Urban Geographic Information System
- **Certificates:** CompTIA Security+ (In Progress), CompTIA Network+ (In Progress)
- **Honors:** Awarded Dean's List (Winter 2023 - Summer 2024)
- **Skills:** Python, R Studio, Java, ArcGIS Pro, QGIS, Github, HTML, Data Visualization, Machine Learning, Programming, Artificial Intelligence

WORK EXPERIENCE

Air Force Reserve

Joint Base Lewis-McChord, WA

Health Service Management and Data Coordinator

February 2022 - Present

- **Hold an active DoD Security Clearance;** trusted with access to sensitive medical and personnel data in a secure military environment.
- **Applied HIPAA privacy and security principles in daily handling of sensitive medical and personnel data** within a DoD environment, ensuring confidentiality, access control, and regulatory compliance in accordance with military healthcare standards.
- **Coordinate healthcare operations, including patient scheduling, medical recordkeeping, and data quality assurance** to support mission readiness.
- **Serve as MRDSS (Medical Readiness Decision Support System) Entry Coordinator** for 200+ personnel, ensuring data accuracy, access control, and compliance with Air Force health and readiness standards.
- **Tracked occupational and medical readiness requirements**, including immunizations, periodic health assessments, and medical clearances, identifying deficiencies and coordinating corrective action to keep personnel mission-ready.

PROJECTS AND LEADERSHIP EXPERIENCE

Information Assurance and Cybersecurity

January 2026 - March 2026

- **Conducted a Man-in-the-Middle (MITM) attack** using ARP spoofing and Wireshark to intercept unencrypted HTTP traffic, successfully capturing login credentials in clear text and demonstrating the importance of TLS encryption and secure network configurations.
- **Identified and exploited SQL Injection and Cross-Site Scripting (XSS) vulnerabilities** using OWASP ZAP, bypassing authentication controls and executing malicious scripts; analyzed root causes and proposed input validation and sanitization controls to mitigate injection-based attacks.

Urban Geographic Information System

January 2026 - March 2026

- **Conducted hospital accessibility analysis in San Francisco** using Network Analyst's OD Cost Matrix and Service Area tools to calculate patient travel times, identify individuals beyond a 10-minute threshold, and evaluate spatial inequities in healthcare access.
- **Created a homelessness risk map in ArcGIS Pro** by constructing a hypothetical worst-case census tract and using the Similarity Search tool to rank tracts based on demographic and socioeconomic risk factors (poverty, unemployment, housing burden, mental illness), supporting data-driven prevention planning.

Seattle Hope Presbyterian Church

Church Event Director and Lead Photographer

September 2022 – Present

- **Designed and delivered structured Korean language instruction** for 15+ elementary students, developing interactive lesson plans that strengthened engagement and foundational language retention.
- **Directed planning and execution of 12+ large-scale community events (100–200 attendees)**, managing logistics, budgeting, and post-event reporting in Excel and Google Sheets while supporting digital content strategy that increased engagement by 25%.
- **Leveraged 3+ years of experience at a high-volume tea shop**, entrusted to lead peer team members during unsupervised shifts and independently operate full weekend shifts, overseeing customer service, workflow coordination, inventory management, and end-of-day closing procedures.
